

Poles are made of lightweight high quality aluminum.  
ABS hand grips are ergonomically designed for comfort and positive grip.  
Pole shafts are marked with cm increments to allow for ease of setting poles  
to your most comfortable length.  
Pole ends have carbide tips.  
Supplied with 3 additional ends, dome shaped cap for snow, angled  
hard rubber end and rubber cap for general use.  
Hiking pole, 3 section with nylon strap and plastic buckle  
adjustment. Pole has anti-shock spring to absorb impact.  
(Sold individually.)
